RE: **Galaxy/Spectron Superfund Site, Elkton, Maryland**  
**Amendment to IAG DW96943859 - Scope of Work**

Dear Mr. Brzezinski:

EPA is amending the scope of work and preparing an Interagency Agreement (IAG) amendment for IAW DW96943859. Please provide a cost estimate broken down in budget categories (a) to (k) for the following scoped work.

**Amended Scope of Work**

**Operable Unit 1 - Shallow Soil Contamination**

- Evaluate risk assessment data and determine a soil screening level for excavation of hot spots.
- Provide technical support to RPM in response to comments received on Proposed Remedial Action Plan (PRAP)
- Provide technical support to RPM during his development and issuance of Record of Decision (ROD) .
- Provide assistance to RPM during remedial design discussions with potentially responsible party (PRPs) group.
- Provide assistance and comments on final remedial design for operable unit 1 shallow soil contamination.

If you have any questions please feel free to contact me at (215) 814-3451.

Sincerely,

  
Robert Sanchez  
Remedial Project Manager
